

The PurpleSeal PS-C All-Composite Frac Plug

Zero metallic content plus premium performance at a great price

438 PS-C

360 PS-C

The PurpleSeal™ PS-C is an all-composite frac plug with ceramic buttons in the upper and lower slips, rated at 68.9 MPa. Proprietary high-strength composite materials ensure uniform performance and durability at temperatures up to 121.1° C. Interlocking castellations on the slips and end caps and a contoured interface between the slips and cones eliminate component rotation to ensure even, concentric slip expansion. With zero metallic content, PurpleSeal PS-C frac plugs consistently drill out in 6 minutes or less.

Features and Benefits

- Up to 16% less material than the PS-X
- Anti-preset features in both the plug and wireline adapter kit
- Proven seal back-up ensures superior sealing performance
- Available with the PurpleSeal Express™ single-use plug-deployment system
- Can also be deployed on all conventional setting tools
- Drill-out work string can be conventional or coiled tubing
- Pump-down wiper is included for every plug (use is optional)
- Can be run with the frac ball in place to conserve water
